

i5 Compact Cabinet Water Softener

Excellent where Space-Saving is required or when a stylish cabinet type water softener is desired.

- Compact, Space-Saving Design – Ideal for garages, utility rooms, laundry rooms, closets, and homes with limited installation space.
- Attractive Modern Cabinet – Integrated design conceals the mineral tank and salt storage for a clean, streamlined appearance.
- Premium Water Softening Performance – Removes hard water minerals that cause scale buildup and soap scum throughout your home.
- Protects Plumbing & Appliances – Helps extend the life of water heaters, dishwashers, washing machines, faucets, and fixtures.
- Softer Skin & Hair – Enjoy cleaner-feeling skin and softer, more manageable hair after every shower.
- Cleaner Dishes & Glassware – Reduces spotting, film, and mineral deposits for sparkling dishes and crystal-clear glassware.
- Brighter, Softer Laundry – Helps clothing retain vibrant colors while reducing detergent usage.
- Shielded from Dust & Debris – Durable cabinet protects internal components and salt from dirt, insects, and environmental contaminants.
- Quiet, Efficient Operation – Cabinet enclosure helps minimize operational noise during regeneration cycles.
- Easy Salt Access – Lift-up lid makes adding salt quick, clean, and convenient.
- High-Efficiency Operation – Designed to minimize water and salt consumption while delivering consistent soft water.
- Automatic Regeneration – Intelligent controls monitor water usage and regenerate only when needed.
- Dimensions: 14" w x 21" d x 45" h.
- Available with 1.0 or 1.5 cubic ft media tanks.
- Comes equipped with the i5 Intelligent Digital controller, which is incredibly user-friendly and provides reliable operation for years to come.
